Admin Home > Disable User > Example User 1 > Email
Disable User
Disabling: Example User 1 (user1@mail.com)
Is this user's email still needed? Yes No
The mailbox will be converted to a shared mailbox, so a license will no longer be needed.
Without this, the mailbox contents are deleted after 30 days without a license.
Forward this user's emails to another user? Yes No
Forward to [ ] Add
Example User 3

Disable User
Disabling: Example User 1 (user1@mail.com)
The following changes will be made to User 1's account:
User 1's Sign-in will be blocked
User 1's mailbox will be converted into a shared mailbox
User 1's mail will get forwarded to [User 2, User 4]
User 1's OneDrive will be available to [User2]
The following changes will be made to User 1's licenses:
User 1's Office E3 license will be removed
Email, OneDrive, Teams, Desktop Office Apps
User 1's Power Automate license will be removed
Automated Flows - Any created flows will stop working
Individual emails and files will be deleted after 30 days without a license
